

FLOORMAX™ COATINGS Prime-Max

FLOORMAX™ Coatings Prime-Max is a two-component, penetrating, 100% solids primer that has been formulated to perform without associated vapors, VOC's, or flammability issues. FLOORMAX™ Coatings Prime-Max provides the chemical nature needed to achieve superior inter-coat adhesion with the FLOORMAX™ Coatings Polyurea High Performance Coating. It also can be used as a low cost, stand alone waterproofing coating for concrete floors.

EXCELLENT ADHESION, DURABILITY

- Penetrates the concrete for superior adhesion
- Ideal for high-traffic areas due to its excellent wear resistance
- Chemically resistant to automotive chemicals

EASY TO USE AND ECONOMICAL

- One to One Mix Ratio
- Can also be used as a stand alone waterproofing coating, saving labor time & money

ZERO VOC's, LOW ODOR

- Protects the environment and the ozone layer

USE FOR

- Concrete Restoration
- Basecoat for Polyurea Topcoat
- Stand Alone Waterproofing Coating

Multiple Applications

- Basins & Reservoirs
- Boat Floor Coating
- Concrete Decks
- Concrete Restoration
- Control Joints
- Dock Coating
- Equipment Wash-Down Areas
- Foundation Coatings
- Garage Floor Coatings
- Highway Construction (overpasses/metal culverts)
- Laboratory Floors
- Man-Hole & Sewer Linings
- Man-Hole Protective Coatings
- Man-Hole Restoration
- Metal Roof Bolt Seam Repair Coating
- Parking Structure Coatings
- Pool Deck Coating
- Tunnels
- Wharf/Freight Dock Coating

AND SO MUCH MORE...
